

JOSEPH ALVAYERO

SOFTWARE ENGINEER (ENTRY LEVEL)

+13239840674
JALVAYERO2@TOROMAIL.CSUDH.EDU
LOS ANGELES, CA

SUMMARY

Entry-level **Software Engineer** skilled in building responsive, user-focused web applications. Strong foundation in **JavaScript, Python, HTML/CSS, and modern frontend development**. Demonstrated ability to design, build, and deploy production ready features through a fully developed **Personal Portfolio Website**. Fast learner, strong communicator, and highly motivated to contribute to real engineering teams.

SKILLS & ABILITIES

- **Languages:** JavaScript, HTML, CSS, Java, Python, MySQL, C and Assembly
- **Frontend:** React (optional), Tailwind, Responsive Design, Component Architecture
- **Tools:** Git, GitHub, VS Code, Eclipse
- **Deployment:** Vercel, Netlify, GitHub Pages
- **Operating Systems:** Windows, MacOS, Linux
- **Other:** UI/UX fundamentals, SEO basics, Accessibility

Projects

Overview

A fully responsive, production ready portfolio website built to showcase software engineering skills, projects, and professional background. Designed with a focus on performance, accessibility, and clean UI/UX principles.

Core Responsibilities

- Architected the site using a modular, component-based structure to improve maintainability
- Implemented mobile first responsive design patterns for consistent rendering across devices
- Developed interactive UI elements using JavaScript to enhance user engagement
- Integrated a validated contact form with error handling and user feedback states
- Added theme toggling (dark/light mode) using CSS variables and state management
- Optimized SEO metadata, semantic HTML, and accessibility attributes for discoverability

Technical Achievements

- Improved page load performance by optimizing images, minifying assets, and reducing render blocking code
- Achieved high Lighthouse scores across **Performance, Accessibility, and Best Practices**
- Implemented reusable UI components to reduce code duplication and streamline future updates
- Deployed the site using modern CI/CD workflows for fast, reliable updates

Tech Stack

HTML, CSS, JavaScript, Git, GitHub, Vercel/Netlify

Impact

- Delivered a polished, professional online presence for recruiters and hiring managers
- Demonstrated ability to design, build, and deploy a complete web application independently
- Showcased frontend engineering fundamentals through real, production level implementation

EXPERIENCE

Security Guard — Paez Patrol 2015 - 2019

- Monitored premises, enforced safety protocols, and responded to incidents to maintain a secure environment
- Identified and reported safety risks, demonstrating strong attention to detail and situational awareness
- Communicated effectively with staff, visitors, and emergency personnel to resolve issues quickly
- Completed detailed incident reports with accuracy and clarity
- Followed structured procedures and adapted to fast-changing situations under pressure
- Demonstrated reliability through consistent attendance, punctuality, and adherence to company policies

Key strengths: problem-solving, communication, responsibility, process-driven work, calm under pressure

Bill Collector — Curacao 2008- 2014

- Assisted customers with purchases, returns, and account inquiries while maintaining a positive and professional experience
- Resolved issues quickly by identifying customer needs and providing accurate information
- Handled transactions with attention to detail and adherence to company policies
- Collaborated with team members to maintain store operations and meet daily performance goals
- Demonstrated reliability through consistent attendance, punctuality, and strong work ethic
- Communicated clearly with customers and staff, contributing to a smooth and efficient workflow

Key strengths: communication, problem-solving, customer service, teamwork, reliability

Sandwich Artist — Subway 2004-2007

- Prepared food orders accurately and efficiently in a fast paced environment, demonstrating strong attention to detail
- Provided friendly, professional customer service while handling high volumes during peak hours
- Maintained cleanliness, safety, and food handling standards in compliance with company and health regulations
- Managed cash register transactions with accuracy and accountability
- Collaborated with team members to keep operations running smoothly and meet daily performance goals
- Demonstrated reliability through consistent attendance, punctuality, and adherence to procedures

Key strengths: communication, teamwork, time management, reliability, process driven work

EDUCATION

High School Diploma — Thomas Jefferson High School Los Angeles, Ca • 2005

Associate in arts (A.A.) in General Science — Santa Monica College
Santa Monica, Ca • 2019

Bachelor of Science in Computer Science — California State
University Dominguez Hills • 2024

Practiced different computer languages including Java, MySQL, C and Assembly

Master of Science in Computer Science— Southern New Hampshire University (SNHU)

In Progress

- Graduate level coursework focused on advanced problem-solving, analytical thinking, and professional development
- Demonstrating commitment to continuous learning and long-term career growth

Self-taught

Completed coursework online on Coursera for Python.

SKILLS

- **HTML / CSS**
- **Responsive Web Design**
- **Frontend Development**
- **React (if applicable)**
- **Git & GitHub**
- **UI/UX Fundamentals**
- **SEO Basics**
- **Problem-Solving**
- **Communication**
- **Teamwork**
- **JavaScript**
- **Python**
